COUNTERSIGN BLOCK
Envelope ENV-MSA-7F2C91 • page 3 of the certificate of completion

This is the countersign block. Field id: sig-countersign-gc
Signer: Roberto Alvarez, General Counsel, Harbor Robotics LLC
Placement: page 3, lower-right, 220x64 points, required=true
Anchor tag: [[csig|req|signer2]]
Legal meaning: the second signature in an ordered ceremony. The MSA is not fully executed until this block is completed.

Do not confuse this block with:
- the contract signature recital on MSA page 6 (that is contract text, not the live field)
- envelope ENV-NDA-NORTHWIND (that envelope is a separate NDA; its reminder failed)
- Ada Chen’s completed sender signature (field id sig-sender-counsel)

Countersign instructions shown to Bob:
Review Articles 4 and 8 of the v2 MSA (term, renewal, liability cap), then apply your signature in the countersign block. Applying the signature constitutes Harbor Robotics LLC’s agreement to Revision 2.
